Next steps

Your bills will continue to be calculated using current rates until new rates are approved by the PSCW. Next steps in the process:

The PSCW will conduct a thorough review of our proposal and will hold a public hearing at a date, time and location to be determined.

↓

After taking our information and public testimony into account, the PSCW will set new rates. They may be higher or lower than what we requested.

↓

If approved, we anticipate new electric, natural gas and steam rates taking effect in January 2023.

Visit psc.wi.gov or call 608-266-5481 to learn about the hearing schedule in docket 5-UR-110. In lieu of testifying at the public hearing, you can submit comments online by going to the "For Consumers" section of the PSCW website.
